## ASSEMBLY INSTRUCTION

Installation method of expansion screws

1. Drill a hole of the size of the expansion screw in the wall

2. Put the expansion screw in the hole, screw the hex nut tightly with a wrench

3. After being tightened, the expansion tube will open to hook to the wall body

### Wall corner

It is suggested that the lowest point of the hammock should be higher than 5cm from the floor

ES

## INSTRUCCIONES DE MONTAJE

Método de instalación con tornillos de expansión

1. Perfore un agujero del tamaño del tornillo de expansión en la pared

2. Coloque el tornillo de expansión en el agujero y apriete la tuerca hexagonal con una llave.

3. Una vez apretado, el tubo de expansión se abrirá para sujetarse a la pared.

### Esquina de la pared

Se recomienda que el punto más bajo de la hamaca esté a más de 5 cm del suelo

PL

## INSTRUKCJA MONTAŻU

Sposób montażu wkrętów rozporowych

1. Wywierć w ścianie otwór o wielkości wkrętu rozporowego

2. Umieść wkręt rozporowy w otworze, mocno dokręć nakrętkę sześciokątną za pomocą klucza

3. Po dokręceniu rurka rozprężna otworzy się i zaczepi o korpus ściany

### Narożnik ścienny

Sugeruje się, aby najniższy punkt hamaka znajdował się wyżej niż 5 cm od podłogi

IT

## ISTRUZIONI DI ASSEMBLAGGIO

Metodo di installazione delle viti di espansione

1. Praticare nel muro, un foro delle dimensioni del tassello

2. Inserire il tassello nel foro e avvitare saldamente il dado esagonale con una chiave inglese

3. Dopo essere stato serrato, il tubo di espansione si aprirà per agganciarsi al corpo della parete

### Angolo del muro

Suggerimento: il punto più basso dell'amaca dovrebbe distanziare dal pavimento di almeno 5 cm

DE

## MONTAGEANLEITUNG

Installationsmethode der  
Dehnschrauben

1. Bohren Sie ein Loch in der Größe  
der Dehnschraube in die Wand

2. Setzen Sie die Dehnschraube in das  
Loch und ziehen Sie die Sechskantmutter  
mit einem Schraubenschlüssel fest.

3. Nach dem Anziehen öffnet sich das  
Expansionsrohr und hängt sich in den  
Wandkörper ein

NL

## MONTAGE-INSTRUCTIES

Installatie van uitzetschroeven

1. boor een gat in de muur ter grootte  
van de uitzetschroef

2. Steek de uitzetschroef in het gat,  
zet de zeskantmoer vast met een  
moersleutel

3. Nadat de schroef is vastgemaakt,  
zal de expansiebuis openen om aan  
de muur te haken

FR

## INSTRUCTIONS DE MONTAGE

Méthode d'installation des vis  
d'expansion

1. Percez un trou de la taille de la vis  
d'expansion dans le mur.

2. Placez la vis d'expansion dans le  
trou et vissez fermement l'écrou  
hexagonal avec une clé.

3. Après avoir été serré, le tube  
d'expansion s'ouvrira pour s'accro-  
cher au mur.

PT

## INSTRUÇÃO DE MONTAGEM

Método de instalação de parafusos de  
expansão

1. Faça um orifício do tamanho do  
parafuso de expansão na parede

2. Coloque o parafuso de expansão  
no orifício, aperte a porca sextavada  
firmemente com uma chave inglesa

3. Depois de ser apertado, o tubo de  
expansão se abrirá para enganchar  
no corpo da parede

HU

## ÖSSZESZERELÉSI UTASÍTÁS

A feszítő csavar beszerelési módja

1. Fúrjon a falba a feszítő csavar  
méretének megfelelő lyukat

2. Helyezze a feszítő csavart a lyukba,  
húzza szorosra a hatszögletű  
anyacsavart egy csavarkulccsal

3. A megszorítás után a feszítő cső  
kinyílik és szorosan illeszkedik a  
fallhoz

Es wird empfohlen, dass der  
niedrigste Punkt der Hänge-  
matte höher als 5 cm über dem  
Boden sein sollte.

Het laagste punt van de  
hangmat hangt u het best op  
meer dan 5cm van de grond.

Nous vous suggérons que le  
point le plus bas du hamac soit à  
plus de 5 cm du sol.

Sugere-se que o ponto mais  
baixo da rede esteja a mais de  
5cm do chão

Javasoljuk, hogy a függőágy  
legalacsonyabb pontja legalább  
5 cm-rel a föld felett legyen
